

# Office 365

Freedom for your business

Work efficiently anywhere and anytime

Right on the money

Optimize the costs of HW, SW and services

# Office 365

## Freedom for your business. Office when and where you need it.

Do you suffer from complicated or no remote access to corporate mail, documents, or calendar? Are there barriers to teamwork - data fragmentation in different applications with different levels of access and quality for relevant search queries? Or do you just want to work more efficiently at lower cost?

The solution is Office 365 – for all companies regardless of their size and scope. A cloud solution with no upfront investment and no complex or time-consuming configuration lets you use the latest Microsoft technologies. Office 365 offers you Microsoft Office or cloud store Onedrive for Business under very budget-wise terms. Everything easily available anytime, anywhere and on any device. Additionally, your data are well protected with integrated security that meets all the requirements of Slovak legislation but also the highest international safety standards.

### With Office 365 you get

- » **Company email** – mailbox capacity of 50 GB and the ability to share calendars with your colleagues
- » **1 TB of storage space** with Onedrive for Business
- » **Save time and other costs associated with travelling** thanks to the possibility of video calls and online meetings with Skype for Business
- » **Efficient and flexible IT** – concentrate on your business and let the administration of servers and data warehouses to professionals from Microsoft
- » **Automatic updates of software**
- » **Office applications** (Word, Excel, PowerPoint, Access, OneNote) with possible installation on up to 5 devices within a single user license

## Your Benefits

- » First-rate **IT services without additional trouble** and no need for support from IT departments
- » **Financially available** technology regardless of company size
- » Access **anytime, anywhere and from any device** with a guaranteed service availability of 99.9%
- » **Costs under control** - only pay for the services you actually use
- » People can **work as a team and communicate** without having to be at the same place
- » **Flexible and easy to add users** and other services, just one simple click
- » Cost savings **on hardware and software**

COMPAREX, as a Microsoft certified partner for this area, can provide you with data migration and users training and implement this solution in a short time, without any significant restrictions on your day-to-day business and operations. For companies with 8,000 employees a switch to Office 365 means savings of about 50% compared to the original on-premise solutions.
