

CONTROL AND OPTIMIZE AZURE COSTS

COMPAREX Unified Cloud Management for Azure gives you more control over your Azure costs by providing you with essential information and enables you to optimize Azure costs with advice and know-how.

YOUR ADVANTAGES AT A GLANCE

- We unlock the full potential of your cloud investment by providing dashboards for full visibility and control over the usage and cost of your cloud services.
- Regular expert recommendations regarding cost optimization for Azure use.
- Our support gives you the round-the-clock coverage you need to ensure maximum availability.

WHEN IT COMES TO AZURE, THESE CUSTOMERS TRUST COMPAREX

TIMKEN

SERVICE OFFERINGS

- We will advise you on your Azure governance structure, how to set up your cost management and provide tagging recommendations.
- We ensure that milestones are met, resources provided and problems are escalated.
- Based on a service level agreement tailored to your needs you are backed by an experienced team. Escalation path to Microsoft included.
- Reporting: Abnormal cost reporting, monthly or annual forecasting of Azure expenses, chargeback from costs to other departments and projects.
- Optimize your Azure expenses: Cut costs with recommendations for downsizing resources based on usage data or by turning off inactive resources.
- Draw on technical and architectural expertise to unlock the potential of new or customized Azure services.

WHY COMPAREX?

- We are focused on the key elements
- We help you put your best foot forward
- We play it safe
